

Healing Words Update

Number 2, October 2014

'You are such a blessing for Randaberg!'

First of all we thank you for the lovely and encouraging and blessed responses we received from you! We are blessed. Prayer is vital, we experience it during our preparations but certainly also when 'we are in ministry'. As in the weekend of September 19-21. We still enjoy looking back!

Sommerfuglkonferansen-2

The second Sommerfuglkonferansen (Butterfly Conference) was again in Randaberg, in the south of Norway next to Stavanger. The theme of the conference was: Jeg er med Ham! Which means: I am (together) with Him! The team in Norway, consisting of young women, had prepared, organized and set up this conference all by themselves. We were involved in the preparations, by prayer and listening to the plans and encouraging the team. In June we had a special trainings

weekend with them. It is beautiful to see how these young women 'take initiative or step out' and do what God has laid in their hearts.

Problems? Stay still!

The stories came when we were picked up from the airport. It is quite a responsibility to organize such a conference. It had not been easy and now we received the details. Just before the conference there were hardly any registrations. Which was so different than the year before. But they told each other that they knew that God had given them this task, so even if only ten people would come, they would go for it! And we agreed with them.

We continually prayed: Lord, bring those women to the conference that you want to be present. It is not about numbers. And there was another problem. The piano player shared that she could play in every service due to her home situation. And also in these matters, everybody 'stood straight' although stress was all around. After prayer and discussion we found another pianist. And so God received all the glory and the team grew in confidence on Him. The number of participants varied per service and laid between 25 and 50.

Workshop

Our workshop was held twice and many ladies came. We received precious feedback. One young lady came both times ☺! Also we prayed for them. How special it is when God touches lives of people by sharing the Word, in worship, personal contact, talking and ministering through prayer. Also we supported the team and we enjoyed the conference!

Growth

Three and a half years ago Anneke met many of the present team for the first time. This was at a meeting of this 'young womens group'. During the first Sommerfuglkonferansen (last year March) Suze met them also.

We are both deeply touched and impressed to see the spiritual growth in the lives of this young team. The stand for what they believe and do the things God asks of them. Beautiful to see! They all had a task. In the worship team, the 'forbeder' (praying for people), various organizational tasks, registration, arrange lunch, kitchen work, etc. These are young mothers with little children and babies, some pregnant. The men take care of the little ones and so all were actively involved.

The speakers were (f.l.t.r.): grandmother Mummi (78 years), Rebekka and Elli, both granddaughters of Mummi.

Precious to see old and young in action!

Hearts of participants and team, but also our hearts were touched by the love of God! We were deeply touched by the words of the team: "We were so happy that you came". And also: "You are a blessing for Randaberg!" To God all the glory!

Thank you so much for your prayers and love for us and Healing Words.

With love,
Suze en Anneke

Bracelets

In Norway for the first time we sold bracelets which we designed and produced ourselves. At each bracelet was a card with a Bible verse. The colors of the beads are an indication of the words of the text. On the photo you see an example, Galatians 5:22,23, the fruit of the Spirit. For the conference in Norway a card with the text in English. In

Holland with Dutch text. Such a bracelet helps to memorize a verse by heart. Also you support the work of Healing Words. In the next update more information about our products.
